**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

The Large companies continually raise prices. People need to have competitive options. Frequently the big companies punish the users with financial penalties, instead of better value and improved product. These companies are making it more and more difficult for the middle class. I feel it is critical for our children to have access to affordable internet. Quite often it is a requirement for their after school work. It is becoming more of a necessity than just entertainment.

Let us keep competitive pricing, and best practices as our goal.
